

2020 Northwell Health *Team Member & Physician Engagement* Survey Results

Executive Overview

A Moment to *Celebrate*

Celebrating Top Decile Performance

- Every item above national benchmark
- Largest health system (by responses) in the top decile
- Only NY state health system in top decile

91st

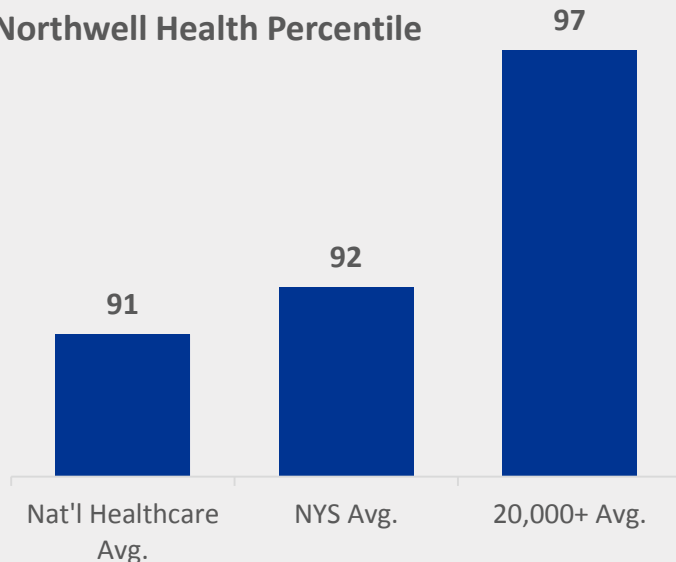

Sustaining Top Decile

- Focus on Key Drivers of engagement
- Understand and reflect characteristics of top decile performers
- Act on intersections of engagement, quality, safety

Northwell Health Percentile Ranking & Benchmarking

Northwell Health Percentile

Item	Northwell Score	National %ile Rank	vs. Nat'l Avg	NYS Rank	20,000+ Rank
I am satisfied with my benefits.	4.04	89 th	+.34	81 st	N/A
My work unit is adequately staffed.	3.61	89 th	+.34	84th	99th
Northwell Health treats employees with respect. (Promote Item)	4.26	93rd	+.31	90 th	94 th
In my work unit, we discuss ways to prevent errors from happening again.	4.31	74 th	+.04	67 th	N/A
I can report patient safety mistakes without fear of punishment.	4.27	74 th	+.05	72 nd	63 rd

- Northwell Health is among the highest performing compared to peers across the country. Northwell outperforms peers most significantly around **benefits, staffing, and respect**.
- While performing at or above peers, area for greatest improvement compared to peers is around **perceptions of safety culture**.

Team Index Distribution *Trends*

What is a Team Index?

Reflects a team's feelings toward basic aspects of a good work environment, including perceptions of their leader, organization, team, and day-to-day work. For example:

- This organization treats employees with respect
- The person I report to is a good communicator
- My work unit works well together
- My job makes good use of my skills and abilities

Entity Unit Engagement Performance Distribution

Staten Island University Hospital and South Oaks Hospital have greater than 30% of units in bottom 2 quartiles.

Total number of units given in parentheses. Unlabeled segments represent less than 10% of the available units.

Leader Index 87

Leader Abilities

Involved in Decisions

Leader Communication

Feel Respected

What is a Leader Index?

Provides insight into the leader-team member relationship and represents how willing and ready the team is to work with their leader to partner on activities that support positive outcomes (e.g., improvement plans)

Engagement by *Position*

Sustaining Engagement

Focus on what matters most

What does the 90th Percentile look like?

- **What differentiates the Top Decile from the rest for Team Members?**
 - Excellent communication between different levels of the organization
 - Senior Leadership communication, winning confidence of team members, visibly prioritizing safety
 - Teams feel well equipped to do their work—necessary tools/resources and time to provide care
- **Areas where Top Decile Performers have improved the most since 2019**
 - Communication between different levels of the organization
 - Safety: error prevention and reporting
- **Relative patterns of engagement by position are similar to the national average**
 - Engagement tends to be lower as you get closer to the bedside
 - RNs at Top Decile organizations tend to be significantly more engaged (93rd %tile)

Identify *key drivers* to set priorities

Key Drivers are items that had the greatest impact on and are the best predictors of engagement.

Keep
Doing

Let's play to our strengths and keep focusing on the

high impact things we do well

Focus
Area

Let's also focus on what matters most to our team members, particularly

high impact, low scoring items

Sustaining Engagement

Team Members

Setting our priorities for *team members*

Keep Doing

Let's play to our strengths and keep focusing on the
high impact things we do well

Focus Area

Let's also focus on what matters most to our team members, particularly
high impact, low scoring items

1

Northwell Health treats employees with respect.

2

Northwell Health cares for my overall well-being.

3

Northwell Health has demonstrated its commitment to a diverse and inclusive environment.

1

Northwell Health makes every effort to deliver safe, error-free care.

2

My work location provides high-quality care and service.

3

Senior management provides a work climate that promotes patient safety.

What will we *continue* to do?

Keep Doing

Let's play to our strengths and keep focusing on the *high impact things we do well*

1

Northwell Health treats employees with respect.

2

Northwell Health cares for my overall well-being.

3

Northwell Health has demonstrated its commitment to a diverse and inclusive environment.

What we heard:

- “Northwell **respects** and appreciates employees and cares about their **well-being**.”
- “We are a **family** at Northwell Health. We treat each other with **respect** regardless of race and ethnicity.”
- “Northwell Health strives to **care** for its employees, patients and customers. I firmly believe that Northwell Health cares for my overall **well being** and that of others.”

Tactics to continue work in this area:

- Communicate, communicate, communicate. Provide team members as much information as you can about current state, strategic plans and possible barriers.
- Managers conduct 1:1 meetings with team members to privately discuss any issues.
- Value diversity, equity, and inclusion as a strength, not a problem or issue to resolve. Examine perceptions of the team member experience by key demographics and continue to advance equity, diversity, and inclusion principles in local and organizational initiatives.

Where will we *focus*?

Focus
Area #1

Northwell Health makes every effort to deliver safe, error-free care.

.01 vs. 2019

74th percentile
vs National Avg

What we heard:

- “Frontline staff need more **training** and support to improve **patient safety** and treatment.”
- “If you improve employee satisfaction/workload/education, you would improve patient satisfaction and **safety**...”
- “Continually replace manual processes with technology advancements to **reduce errors** and support overall **consistency** of the care delivered to patients.”

Tactics to address the needs:

- Ensure that quality, safety, engagement and PX results are communicated widely and regularly. Communicate this information through stories, not just statistics.
- Use standard processes (ex. SBAR) to relay safety issues and to facilitate patient handoff/shift change
- Develop a “just culture” based on problem resolution, not discipline.
- Empower team members to speak up and feel comfortable raising safety concerns. Leaders should role model this behavior.
- Recognize and reward team members who exhibit expected safety behaviors.
- Create a safety council to spearhead efforts, report into senior leaders and bridge safety strategy with actionable tactics.

Where will we *focus*?

Focus
Area #2

My work location
provides high-quality
care and service.

.04 vs. 2019

79th percentile
vs National Avg

What we heard:

- “I believe we **serve** our patients with **high quality** health care. Keeping the goals **patient-focused** always”
- “Focus on more patient centric activities centered around **quality improvement**, access and a **kind, caring, compassionate** work force.”
- “Better communication amongst departments to provide high efficiency, **high quality** care to our patients.”

Tactics to address the needs:

- Collaborate with team members to define what high-quality care and service looks like. Point out examples, not only from your department but across the organization as well.
- Invite team members to share details about the things they love about your organization.
- Together, create an action plan outlining how your department is going to achieve specific quality goals.
- Share stories of operational excellence. Recognize those who provide high quality care or service.
- Make sure that non-clinical team members understand their role and contribution to mission.

Where will we *focus*?

Focus
Area #3

Senior management provides a work climate that promotes patient safety.

.02 vs. 2019

82nd percentile
vs National Avg

What we heard:

- “have our voices heard by **upper management** when we report concerns about **patient safety**.”
- “...everyday I see the teams and **management working together** to create a **safe** and **innovative** place for all patients.”
- “Keep encouraging culture of care model, keep the lines of **communication** open, access to **senior leadership/visibility**”

Tactics to address the needs:

- Continue conducting and prioritizing patient safety rounds.
- Consider designating patient safety coaches on each unit who report directly to senior leaders.
- Discuss patient safety at all department meetings, town halls and during rounding.
- Senior leaders must model “just culture” behaviors and address any punitive approaches to safety.

Physician Results

Where are we going?

The 90th percentile

What does the 90th Percentile look like?

- **What differentiates the Top Decile from the rest for Physicians?**
 - Feeling equipped to provide high-quality care: staffing, time to provide care
 - Strong alignment with Administration: effective communication, two-way feedback channels, and confidence in administration
- **Areas where Top Decile Physician performers have improved the most since 2019**
 - Job stress and decompression
 - Alignment with Administration: effective communication and two-way feedback channels
 - Communication from leadership

Moving toward the 90th... What would it take?

Identify our key drivers of engagement

- Northwell Health makes every effort to deliver safe, error-free care.
- Northwell Health treats physicians with respect.

Improve our key drivers

Move **10%** of respondents who do not strongly agree to strongly agree on those **key drivers**

4.34 **80th**

If **256 more physicians** rated these as strongly agree, we could be at the 80th percentile in engagement.

68th

4.23

Right now, **714 physicians** selected strongly agree on these three key drivers.

Physician Priorities

(Employed Physicians)

Setting our priorities for *physicians*

Keep Doing

Let's play to our strengths
and keep focusing on the

high impact things we do well

1

Overall, I am satisfied with the performance of Northwell Health's leadership.

2

I have confidence in Northwell Health leadership.

Focus Area

Let's also focus on what matters most
to our team members, particularly

high impact, low scoring items

1

Northwell Health makes every effort to deliver safe, error-free care.

2

Northwell Health treats physicians with respect.

What will we *continue to do*?

Keep
Doing

Let's play to our strengths
and keep focusing on the

high impact things we do well

1

Overall, I am satisfied with the performance of Northwell Health's leadership.

2

I have confidence in Northwell Health leadership.

What we heard:

- "Great **leadership** and teamwork. **Active** and **responsive** leadership."
- "I feel **supported** by my leadership at most times ...they are **responsive** to my concerns"
- "**The leadership** from Michael Dowling. **Proud** of what they have accomplished."

Tactics to continue work in this area:

- Round regularly with all physicians. Ensure your rounding program is structured and purposeful.
- Remove barriers, stressors and challenges that interfere with physicians' practices. If you're unclear on what these barriers are, ask your physicians.
- Meet the physician where he or she is. Some physicians will want to be highly engaged while others may be focused solely on patient care. Meet the individual needs of physicians but always provide opportunity for communication and collaboration.

Where will we *focus*?

Focus
Area #1

Northwell Health makes every effort to deliver safe, error-free care.

.05 vs. 2019

75th percentile
vs National Avg

What we heard:

- “Supporting a **culture of safety** amongst all staff and providers toward building a better and safer system”
- “...Constant inventory and upkeep of equipment is crucial for the **safety** and **health** of our patients”
- “**Listen** to the recommendations about patient **care and safety** from **physicians** who are actually doing the work”

Tactics to address the needs:

- Ensure that quality, safety, engagement and PX results are communicated widely and regularly. Communicate this information through stories, not just statistics.
- Use standard processes (ex. SBAR) to relay safety issues and to facilitate patient handoff/shift change
- Develop a “just culture” based on problem resolution, not discipline.
- Empower physicians to speak up and feel comfortable raising safety concerns. Leaders should role model this behavior.
- Recognize and reward physicians who exhibit expected safety behaviors.
- Create a safety council to spearhead efforts, report into senior leaders and bridge safety strategy with actionable tactics.

Where will we *focus*?

Focus
Area #2

Northwell Health treats
physicians with respect.

.16 vs. 2019

69th percentile
vs National Avg

What we heard:

- “Treat doctors with more **respect**. Allow them to have **input** into their day to day practice.”
- “Treat physicians with **dignity and respect**. Train leadership to demonstrate an actual commitment to **physician burnout** with actions; not give the impression that Northwell prioritizes profits over providers' **well being**.”
- “More direct **communication** with **administration** as to **complaints and solutions** with day-to-day issues”

Tactics to address the needs:

- Create opportunity and expectations around physicians contributing ideas and strategic direction.
- Maintain a “constant listening” posture with physicians. Have regular outreach sessions (i.e., rounding) but also have mechanisms for physicians to bring ideas to leadership (ex. Bright Ideas box in the physician's lounge)
- Proactively inform physicians of upcoming changes that effect their practice or relationship with the organization. Communicate and listen before making changes that impact physicians.
- Recognize physicians for their work. Publicly communicate this through emails, newsletters, physician spotlights and during senior leaders rounding meetings.

Reflecting on our journey and
moving forward together

Made for *this*™

Next steps and *improvement efforts*

Build Awareness

- Cascade results to Executives
- HRBP results release mid-Dec
- All leader results release early Jan 2021

Gain Understanding

- HRBP on-demand training available mid-Dec
- Strategic deep dives connecting engagement and operational data (e.g., patient experience and quality)
- Strategic entity presentations

Empower Leaders

- Leader on-demand training available mid-Dec
- Leaders review results with their teams Jan 2021
- Operational leaders partner cross-functionally and review results Jan 2021
- Equip leaders with Career Experience tools and resources (e.g., GROW, internal careers portal, etc.)

Activate Teams

- Local improvement planning and solution sessions
- Talent Review sessions include discussion of individual and team effectiveness assessments

**Note:* In the event of COVID resurgence, all COVID-related activities take precedence over formal engagement activities.

2020 Culture of Safety Items by Domain

Pride & Reputation

- This entity provides high-quality care and service.
- This entity makes every effort to deliver safe, error-free care to patients.
- I would recommend this entity to family and friends who need care.
- Senior management provides a work climate that promotes patient safety.

Prevention & Reporting

- In my work unit, we discuss ways to prevent errors from happening again.
- We are actively doing things to improve patient safety.
- I feel free to raise workplace safety concerns.
- In my unit, team members & Mgrs work together to ensure the safest possible working conditions.
- I can report patient safety mistakes without fear of punishment.
- Mistakes have led to positive changes here.
- When a mistake is reported, it feels like the focus is on solving the problem, not writing up the person.
- Team members who work at this entity will freely speak up if they see something that may negatively affect patient care.

Resources & Teamwork

- My work unit/department works well together.
- There is effective teamwork between physicians, ACPs, and nurses at this entity.
- Different work units/departments work well together in this entity.
- Comm between physicians, ACPs, nurses, & other medical personnel is good in this organization.
- Comm between work units is effective in this organization.
- The amount of job stress I feel is reasonable.
- My work unit is adequately staffed.
